Tuesday evenings, 7-9 pm (6 classes)

***Beginning January 24, 2012***

Tuition \$250 plus \$35 materials fee

Throughout the world birds have been interpreted as a spiritual connection between heaven and earth. Each species has developed its own special associations, as seen in paintings and sculpture throughout the ages.

Through the use of simple techniques & materials (wire, found objects, acrylics & paper mache) we will create the bird of your dreams... your own visionary muse. This class is meant to accommodate your own personal vision and interpretation of the bird you choose, so the form the sculptures take will vary in format... from wall reliefs to free-standing sculptures.

***Come join us and release your inner bird!***
